Executive Service
for the Executive Class

PARK2GO Steps It Up

PARK2GO is Calgary International Airports only off-site valet parking service. The company prides itself on making parking the fastest part of its customer's trip by assisting them with luggage and getting them to and from the airport in nine minutes. PARK2GO is the Canadian leader in integrating the latest valet parking technology enroute to providing customers with fast, efficient and affordable parking solutions.

More than a year after it started operations as Calgary International Airports only offsite valet parking and shuttle service, PARK2GO has completely upgraded its service. It is the first Canadian company to install AVPM, a state-of-the-art valet parking system. AVPM tracks, monitors, controls and manages; valet keys, vehicles, tickets and employees- all in one system. In the process, PARK2GO General Manager George Garcia believes this award winning application gives his company a significant competitive advantage.

The new technology allows PARK2GO to be more nimble and keep a step ahead of our demanding customers who value technology and fast check-ins and checkouts. The strategy is also in keeping with our commitment to provide friendly service, quick delivery and security for our customer's vehicles while they travel.

George Garcia, General Manager

PARK2GO now offer Air Miles, A First in Canada. Air Miles is part of our ongoing commitment to provide our customers with the most pleasant and enjoyable Calgary Airport parking service experience from the beginning to the end of their trip. <http://www.park2go.ca>
